

SheetWizard

Advanced Dual Rotary Sheeter

- World leading knife technology provides 1000gsm capacity, on machine blade sharpening
- Liquid cooled knife motors and drives for lower power consumption and industry leading speed curve
- Flexible configuration for custom applications and field upgrades
- Advanced overlap system
- Quick set 2 pocket stacker bay for 2 minute size change
- PC based control system with menu storage and remote diagnostics
- Zero reject non-stop pallet change
- Advanced system to reduce waste when reels have damages edges
- Available with a full range of manual and auto splicing unwind solutions
- Digital Size Sheet option with upgraded knife for high speeds on short sheet lengths

Options

- Programmable decurling
- Automatic tension control
- Digital assist or automatic slitler setting
- Web Cleaning
- Cut to register
- Twin cut technology for high speed digital sheeting
- Quick set up for rapid changes
- Advanced overlapping for reduced sheet marking
- Automatic pallet change
- Offset skid stacking

Technical Details

		metric	imperial
Sheet width	max.	1.650 mm 1.850 mm	65" 73"
Reel width	optional	1.700 mm 1.900 mm	67" 75"
Reel diameter	max. optional	1.850 mm 2.100 mm	73" 83"
Reel weight	max.	3.410 kg	7,500 lbs
Core diameter	min. max.	76 mm 305 mm	3" 12"
Speed	max.	335 m/min	1,100 ft/min
Length accuracy	Single web	+/- 0,38 mm	0.015"
Length accuracy	Multi web	+/- 0,5 mm	0.020"
Knife load	max.	1.000 gsm	
Knife load Slitter	max.	600 gsm	
Sheet length	min. max.	400 mm 1.650 mm	15.75" 65"
Optional sheet length 1.650 mm width	min. max.	279 mm 2.080 mm	11" 82"
Optional sheet length 1.850 mm width	min. max.	305 mm 2.080 mm	12" 82"

Flexible and cost effective configurations to suit many converters, folding carton plants and mills. The SheetWizard can run both paper and board and provides MarquipWardUnited's superior cut quality and accuracy.

BW Papersystems, part of the Barry-Wehmler group, builds capital equipment, that converts paper into products used by consumers – every day, all over the world. We offer innovative technologies, service and parts plus, long-standing global experience, in the corrugating and

finishing; sheeting and packaging; stationery; book-binding and security-documents industries. Customers rely on us for machines to create items such as: corrugated boxes, folding cartons, passports, notebooks, copier paper, and more.
