

Knife Top Safety Covers

Upgrade

Upgrade Applications

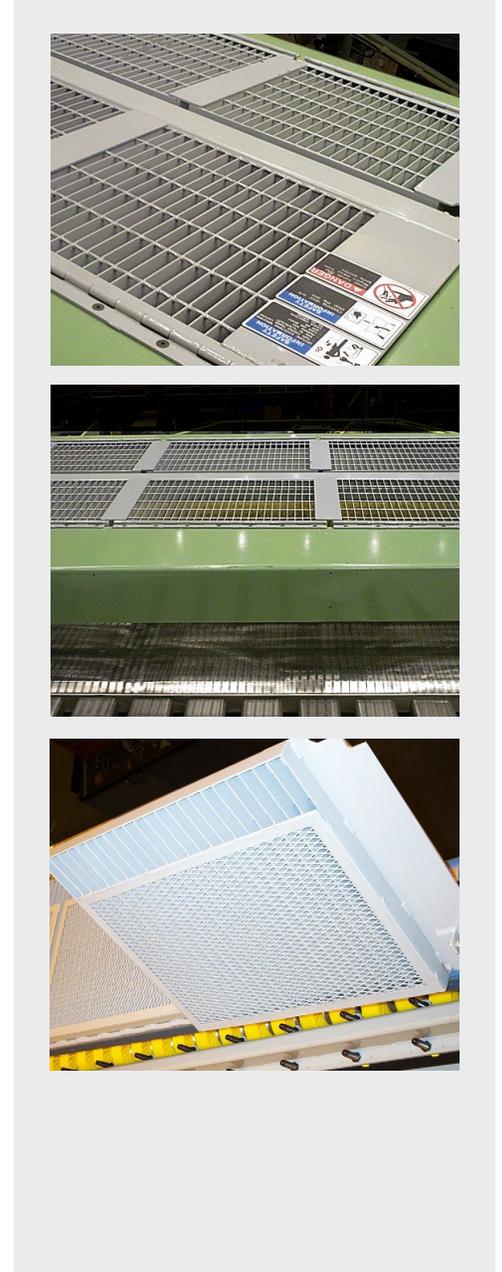

Applicable to all BW Papersystems (MWU) Knives, built before September 2014

Upgrade Description

Replaces existing bi-fold doors with grate-style top covers with roller cover type limit switches.

Upgrade Benefits

- Improves overall operator safety
- Pleasing to the eye
- Robust design for long-term use
- Very easy to open and close
- Safer for operator and maintenance access
- Decreases downtime due to poor limit switch functions

VortX for starch and mixing kitchens
