

Indramat VSA Upgrade

Upgrade

Upgrade Applications

Applicable to all Ward Rotary Die Cutters with Indramat Components.

Upgrade Description

Drive and motor upgrade to replace obsolete existing drive.

This upgrade includes a new Indramat servo motor/gear box assembly and all required electrical controls. Upgrade will help control costs and downtime associated with obsolete component failures.

Upgrade Benefits

- Eliminates obsolescence risk
- Minimizes unplanned downtime
- Lower maintenance costs

Options

- Diagnostics Package
