

# MCS Obsolete Safety Relay Upgrade

Upgrade

### Upgrade Application

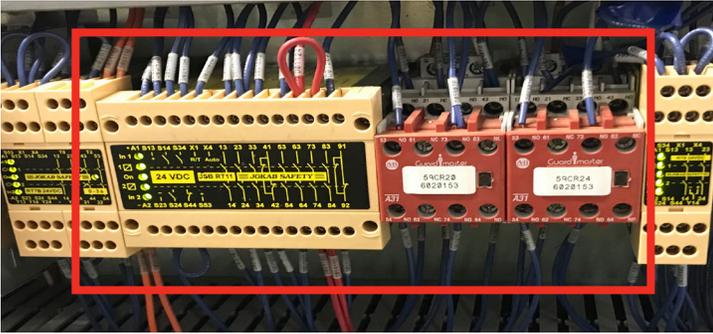

Applicable to obsolete MCS Jokab Safety relays.

### Upgrade Description

This upgrade replaces the obsolete Jokab Safety relay with the current version of the safety relay and modules. Included in the upgrade are all the necessary engineering, hardware, manual updates, and print updates.

### Upgrade Benefits

- Replaces obsolete Safety Relay.
- Prevents potential downtime due to failed obsolescence.

Old Obsolete Safety Relay

New Safety Relay
