

Singlefacer Glue Roll AC Motor & Gearbox Upgrade

Upgrade Application

Applicable to all Singlefacers

Upgrade Description

Upgrade includes new motor, gearbox, associated hardware, encoder (if necessary), installation instructions, manual updates, and print updates.

NOTE: This upgrade is offered at exchange pricing. Parts removed are to be sent back to BW Papersystems.

Upgrade Benefits

- Uses existing BaumueLLer Drive (Drive will need to be reprogrammed using WinBASS Software
- Prevents possible downtime due to failed, obsolete components.
- OEM (Original Equipment Manufacturer) engineered solution assures software compatibility for smooth installation
- As the OEM, BWP provides upgrades and service specific to your make and model of machine-- this ensures future parts compatibility and troubleshooting
