

Stacker Energy Absorbing/Vibrating Backstop

Upgrade

Upgrade Application

Applicable to all stacker models

Upgrade Description

The Energy Absorbing/Vibrating Backstop Upgrade for MarquipWardUnited's Stacker significantly reduces sheet bounce, producing improved stack quality. The upgrade modifies the existing backstop with additional dampening material along with a pneumatic vibrator for the backstop assembly.

Upgrade Benefits

- Pneumatic vibrator
- Extra dampening material
- Available on all Stacker models
- Improved stack quality
- Reduced sheet bounce against backstop I can add the hyperlink to the email address if it comes in today, otherwise one of you will have to add that tomorrow.
