

## Quick Change Tamper Upgrade

TIP MWU\_2601

Folio Sheeters

### Benefits:

- Reduce waste
- Reduce order change time

Safety

Obsolescence

Quality

Cost Reduction

Performance

Maintenance

After Upgrade

Before Upgrade

## Quick Change Tamper Upgrade

**Machine Model for Improvement:** TSKM, Wizard, and Hawk Sheeter

### Description of Improvement:

This upgrade was designed to reduce weight for operators as well as reduce order change time. The new design incorporates the electric vibrator to the mounting clamp and uses rubber isolators to improve the effective vibration into the tamper blade.

Additionally, this reduces the weight and time since the vibrator is no longer attached.

Included is a new tamper carriage, clamp, vibrator, and sets of tamper blades to match existing lengths, along with any necessary engineering, installation instructions, and documentation updates

# Quick Change Tamper Upgrade

## Included in this TIP:

- All required parts
- Necessary engineering
- Updated documentation pages for relevant sections

## Estimated downtime, no production:

- 1 day

## Estimated startup, limited production:

- 1 day

## Estimated monitoring in production:

- 0 days

## Required manpower:

- 1 BW Papersystems Field Service Engineer
- 1 skilled mechanical , by customer

(Additional local resources to be determined, if needed)
